DETAILED ACTION

Response to Applicants Amendment Submitted April 16, 2007

1. In view of applicants' amendment submitted April 16, 2007 the objection to the claims and the rejection of claim 14 have been overcome.

Allowable Subject Matter

1. The indicated allowability of claims 1, 3 to 8, 10 to 13, 37 to 48, 123, 124, 126 to 128, 130 to 132, 135 to 148 and 151 to 154 is withdrawn in view of the newly discovered copending application that raises the issue of nonstatutory double patenting rejection. A rejection based on the newly copending application follows.

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to

Art Unit: 1742

be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1, 3 to 8, 10 to 29, 31 to 48, 123, 124, 126 to 128, 130 to 132, 135 to 148 and 151 to 154 provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 to 103 of copending Application No. 10/037576. Although the conflicting claims are not identical, they are not patentably distinct from each other because the composition recited in each set of claims appears to be the same and the deposition of the composition in 10/037576 onto a substrate as recited in the instant claims is clearly suggested by, for example, claim 103 of 10/037576.

3. This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
